ELSEVIER

Bone Vol. 29, No. 6
December 2001:576–580

SUBJECT INDEX
Bone, Volume 29, 2001

Absorptiometry
Genetic causes of osteoporosis, Perspective, 407
Abstracts
Argentine Society of Osteology and Mineral Metabolism XVII Annual Meeting, 294
Iberoamerican Society of Osteology and Mineral Metabolism V Congress, 294
Acetaminophen
Bone resorption in men and, 437
Aging
Bone loss and, male rodent model, 141
Bone turnover rate and bone mineral density and, sex steroids and, elderly males, 286
Alendronate
Bone loss in inhaled steroid therapy, 506
Bone mineral density changes during treatment with, 511
Bone porosity in osteoporosis and, 185
Bone resorption inhibition and, osteoclast apoptosis and, 553
Alkaline phosphatase
Circadian and longitudinal variation of, 361
Amylin
Osteoclasts development and, 162
Angiogenesis
Inhibition of, fracture healing and, rats, 560
Anthropoidea
Skeletal research and, 1
Apatite maturation
In mineralized tissue, Fourier transform infrared microspectroscopic analysis, 547
Apoptosis
Caco-2 cells, bisphosphonates induction of, mevalonate pathway and, 336
Argentine Society of Osteology and Mineral Metabolism XVII Annual Meeting
Abstracts, 294
Ash fraction
Bone volume fraction and, bone strength and modulus effects, 74
Attachment protein, cementum-derived
Expression during cementogenesis, 242

Bioassay
Salmon calcitonin calibration and, 84
Biochemical markers
Bone turnover as measure of treatment response in Paget's disease and, 447
Circadian and longitudinal variation of, 361
Collagen type II C-telopeptide fragments as index of cartilage degradation, 209
Biomechanics
Bone, in prostaglandin EP_1 EP_2 knockout mice, 121
Genetic causes of osteoporosis, Perspective, 407
Bisphosphonate
Apoptosis of Caco-2 cells and mevalonate pathway inhibition and, 336
Body size
Genetic determination of, 249
Body temperature
Osteoclast physiology and function and, letter, 198
Bone
Ectopic, osteogenic cells in skeletal muscle and, 317
Load-bearing capacity, bone size and, Perspective, 101
Bone biomechanics
Torsional testing and peripheral quantitative computed tomography and, 265
Bone defects, segmental
Homologous growth hormone effects on healing of, 368
Bone densitometry
Osteoporosis-related fracture, risk estimation, 374
Bone formation
Bipedal stance exercise effects on estrogen antiresorption and, 126
Statins and, 495
Strontium ranelate effects on bone resorption in, monkeys, 176
Bone growth
Appositional and longitudinal, static and dynamic forces effects, 105
Bone histomorphometry
Npt2 gene and, 467
Peripheral bone and axis skeleton in renal failure and, 258
Bone loss
Age-related, rodent model of, 141
Inhaled steroid therapy and, alendronate preventive effects, 506
Leisure time physical activity and, peri- and postmenopausal women, 442
Levormeloxifene effects after ovariectomy, monkeys, 7
Bone marrow stromal cells
Comparison with dental pulp, cDNA microarray analysis, 532
Bone mass
Alendronate effects on bone porosity in osteoporosis and, 185
During skeletal maturation, calcium intake effects, rabbits, 62
Zinc effects on, 565
Bone metabolism
Prostaglandin E2 and, 121
Bone mineral density (BMD)
Alendronate effects on, 511
Bone turnover rate and, sex steroid status, elderly males, 286
Calcium and phosphorus influence on anabolic effects of parathyroid hormone and, 344
Distribution, osteogenesis imperfecta and, 453
Estrogen receptor gene polymorphism, postmenopausal women and, 96
Fat mass and, leptin, insulin, estrogen as mediators of, men *vs.* women, 114
Genetic determination of, 249
Hutterite *vs.* non-Hutterite women, 192
25-hydroxyvitamin D_3 levels in postmenopausal women and, 428
Parathyroid hormone effects after ovariectomy, 352
Prepubertal former preterm girls, 424
Bone mineralization
Osteogenesis imperfecta and, 453
Bone morphogenetic protein
Gene promotor characterization, 54
Osteoblastic cell transplantation effects on, 169
Bone morphogenetic protein-2
Transforming growth factor-β1 and, osteoblast differentiation effects, 323
Bone regeneration
Capacity, genetic variations in, mice, 134
Osteoprogenitor growth and differentiation and, 523
Bone repair
Osteoblastic cell transplantation effects on, 169
Bone resorption
Alendronate and risedronate inhibition of, osteoclast apoptosis and, 553
Ibuprofen and acetaminophen effects, men, 437
Strontium ranelate inhibition of, monkeys, 176

8756-3282/01/$20.00
PIIS8756–3282(96)0028–3

Bone strength
Alendronate effects on bone porosity in osteoporosis and, 185
Bone volume fraction and ash fraction influence on, 74
Extreme impact loading effects on, 279
Size and, Perspective, 101
Zinc effects on, 565
Bone turnover
Levormeloxifene effects after ovariectomy, monkeys, 7
Paget's disease treatment response measurement and, 447
Rate of, bone mineral density and, sex steroid status, elderly males, 286
Sex hormone-binding globulin and, osteoporotic fractures, 381
Bone volume fraction
Ash fraction and, bone strength and modulus effects, 74

Calcaneus
Ultrasound, postmenopausal *vs.* premenopausal women, 79
Calcification
Cementum-derived attachment protein expression and, 242
Calcitonin
Osteoclasts development and, 162
Salmon, bioassay and liquid chromatography calibration of, 84
Calcitonin gene-related peptide
Osteoclasts development and, 162
Calcitriol
Peripheral bone and axis skeleton in renal failure and, 258
Calcium
Anabolic effects of parathyroid hormone and, 344
Calcium intake, dietary
Bone mass and calcium metabolism during skeletal maturation and, 62
Calcium metabolism
During skeletal maturation, calcium intake effects, rabbits, 62
Cartilage degradation
Collagen type II, C-telopeptide fragments as index of, 209
Cathepsin K
Levels in osteoclasts, 42
Cementogenesis
Cementum-derived attachment protein expression in bovine tooth germ during, 242
Cementum-derived attachment protein
Expression in bovine tooth germ during cementogenesis, 242
Chondrocytes
Connective tissue growth factor processing and secretion in, 155
Macrophage metalloelastase expression induction during fetal development and tumor progression, 487
Chromatography, high-performance liquid
Salmon calcitonin calibration and, 84
Collagen
Apatite maturation in mineralized tissue Fourier transform infrared microspectroscopy, 547
Collagen type II
As index of cartilage degradation, 209
Computed tomography, peripheral quantitative
Age-related bone loss, male rodent model, 141
Extreme impact loading effects on bone and, 279
Torsional testing and, rat humerus, 265
Connective tissue growth factor
Processing and secretion in chondrocytes, 155
C-Telopeptide
Circadian and longitudinal variation of, comparison with osteocalcin and alkaline phosphatase, 361
Cystatin C
Levels in osteoclasts, 42
Cytokine production
17β-estradiol effects on, 30

Dentin
Apatite maturation in mineralized tissue Fourier transform infrared microspectroscopy, 547
Deoxypyridinoline
Bone resorption in men and, 437
1,25-Dihydroxyvitamin D_3
Age-related osteopenia and, 35
Parathyroid hormone resorption in calvaria and, 231
Dynamic loading
Appositional and longitudinal bone growth and, 105

E11 expression
During fracture healing, 149
EP receptors
Prostaglandin, bone metabolism and, 121
Epidemiology
Fractures, in England and Wales, 517
Hip fractures, in Norway, 413
17β-Estradiol
Bone mineral density and, ovariectomized rats, 352
Cytokine production and, 30
Estrogen
Bipedal stance exercise effects on antiresorption of, 126
Bone mineral density and, ovariectomized rats, 352
Bone mineral density and fat mass relation and, men *vs.* women, 114
Mechanisms of skeletal effects, in postmenopausal women, 216
Osteogenesis induced by, nitric oxide synthase role in, 24
Estrogen receptor gene polymorphism
Bone mineral density in postmenopausal women and, 96
Etidronate
Microdamage and biomechanical properties effects in spontaneous fracture, 271
Exercise
Bipedal stance, estrogen antiresorption and, 126
Exocytosis
Vesicular glutamate, in osteoblasts, 16
Extracellular matrix
Connective tissue growth factor processing/secretion in chondrocytes and, 155

Fat mass
Bone mineral density, leptin, insulin, and estrogen as mediators of, men *vs.* women, 114
Fetal development
Macrophage metalloelastase expression in chondrocytes during, 487
Fibroblast growth factor
Fracture healing effects, 458
Fourier transform infrared microspectroscopy
Apatite maturation in mineralized tissue and, 547
Fractal analysis
Weight-bearing bones during skeletal unloading, rats, 180
Fracture healing
Angiogenesis inhibition and, rats, 560
E11 osteoblastic lineage marker expression during, 149
Fibroblast growth factor effects on, 458
Homologous growth hormone and, 368
Fractures
Epidemiology in England and Wales, 517
Hip, epidemiology in Norway, 413
Osteoporosis-related, risk estimation, 374
Osteoporotic knee, elderly women, statistics and predictions, 419
Spontaneous, etidronate effects on microdamage and biomechanical properties in, 271
Wild moose in Norway, 70
FTIR microspectroscopy
Apatite maturation in mineralized tissue, 547

Gender studies
Bone mineral density and fat mass relation, lepin, insulin, estrogen effects, 114
Gene expression
Fibroblast growth factor effects on fracture healing, 458
Gene promotors
Bone morphogenetic protein and, 54
Gene regulation
During fracture healing, 149
Genetic studies
Bone regeneration capacity, mice, 134

Bone Vol. 29, No. 6
December 2001:576–580

Genetic causes of osteoporosis, Perspective, 407
Genetic determination of bone mineral density, 249
Gli
Bone morphogenetic protein promotors by, 54
Glucocorticoid
Osteoporosis induced by, molecular mechanisms of, 498
Glutamate
Vesicular exocytosis, in osteoblasts, 16
Growth hormone
Homologous, bone defect healing and, 368

Hip fractures
Epidemiology in Norway, 413
Histomorphometry
Age-related bone loss, male rodent model, 141
Hutterite
Bone parameters in, comparison with non-Hutterite females, 192
25-Hydroxyvitamin D_3
Levels in postmenopausal women, bone mineral density and, 428
Hyperparathyroidism
Glucocorticoid-induced osteoporosis and, 498
Peripheral bone and axis skeleton in renal failure and, 258

Iberoamerican Society of Osteology and Mineral Metabolism V Congress
Abstracts, 294
Ibuprofen
Bone resorption in men and, 437
Immunoelectron microscopy
Cystatin C and cathepsin K levels in osteoclasts, 42
Impact loading
Extreme, bone mineral mass, size structure, triple jumper lower limbs, 279
Infant, premature
Bone mineral density at prepuberty, females, 424
Insulin
Bone mineral density and fat mass relation and, men *vs.* women, 114
Insulin-like growth factor
Bone defect healing and, 368
In osteoblastic cells, triiodothyronine effects, 5404
Interleukin-4
Osteoclast formation and, 203
Interleukin-13
Osteoclast formation and, 203

Knee
Osteoporotic fractures, elderly women, statistics and predictions, 419

Leptin
Bone mineral density and fat mass relation and, men *vs.* women, 114
Letters to the Editor, 198
Levormeloxifene
Bone loss after ovariectomy and, monkeys, 7
Load-bearing capacity
Bone size and, Perspective, 101

Macrophage metalloelastase
Expression in chondrocytes during fetal development and tumor progression, 487
Macrophages
IL-4 and IL-13 effects on osteoclast formation and, 203
Magnetic resonance imaging
Muscle cross-sectional area contribution to cortical bone area, prepubertal girls, 388
Men
Osteoporosis in, sex hormone-binding globulin, 90
Metacarpal bone
Fractures in wild moose in Norway, 70
Mevalonate pathway
Bisphosphonate induction of apoptosis of Caco-2 cells by inhibition of, 336
Microarray
cDNA, dental pulp comparison with bone marrow stromal stem cells, 532
Microhardness
Osteogenesis imperfecta and bone mineral density distribution, 453
Microspectroscopy
Fourier transform infrared, apatite maturation in mineralized tissue, 547
Mineralization
Alendronate effects on porosity in osteoporosis, 185
Bone volume fraction and ash fraction influence on, 74
Modulus, elastic
Bone volume fraction and ash fraction influence on, 74
Monocytes
IL-4 and IL-13 effects on osteoclast formation and, 203
Muscle
Cross-sectional area contribution to cortical bone area, prepubertal girls, MRI study, 388

Nitric oxide synthase
Estrogen-induced osteogenesis and, 24
Nonsteroidal antiinflammatory drugs
Bone resorption in men and, 437
Npt2 gene
Osteoclasts function and bone histomorphometry and, 467

Oncogenic osteomalacia
Sinusoidal malignant schwannoma and, 393

Osteoblast differentiation
Bone marrow stromal cell lines and, mice, 236
Bone morphogenetic protein-2/transforming growth factor-β1 effects, 323
Stromal cells transduction efficiency with vesicular stomatitis virus-pseudotyped retrovectors and, 323
Osteoblastic cell transplantation
Bone morphogenetic and bone repair effects, 169
Osteoblasts
Glucocorticoid-induced osteoporosis and, 498
Neurotransmitter action in, 477
Protein kinase C isozymes in, parathyroid hormone effects, 223
Serotonin receptor activation and reuptake in, 477
Triiodothyronine effects on insulin-like growth factor in, 5404
Vesicular glutamate exocytosis in, 16
Osteocalcin
Age-related osteopenia and, 35
Circadian and longitudinal variation of, 361
Osteoclast differentiation
Bone marrow stromal cell lines and, mice, 236
Osteoclasts
Calcitonin, amylin, calcitonin gene-related peptide effects on development of, 162
Cathepsin K and cystatin C in, 42
Formation, interleukin-4 and interleukin-13 effects on, 203
Function of, *Npt2* gene and, 467
Physiology and function, body temperatures and, letter, 198
Type II sodium phosphate cotransporter effects on function, 467
Osteogenesis
Estrogen-induced, nitric oxide synthase role in, 24
Osteogenesis imperfecta
Bone material properties in, 453
Osteogenic cells
In skeletal muscle and, 317
Osteomalacia
Oncogenic, sinusoidal malignant schwannoma and, 393
Osteopenia
Age-related, osteocalcin and vitamin D receptors in osteoblastic cells and, 35
Zinc effects on, 565
Osteoporosis
Alendronate effects on bone mineral density and, 511
Fractal analysis of weight-bearing bones during skeletal unloading, rats, 180

Fractures, endogenous hormones, sex hormone-binding globulin and bone turnover in, 381
Fractures in wild moose in Norway and, 70
Genetic causes of, Perspective, 407
Glucocorticoid-induced, molecular mechanisms of, 498
Hip fractures epidemiology, in Norway, 413
Knee fractures in elderly women and, statistics and predictions, 419
In men, sex-hormone binding globulin and, 90
Risk estimation, 374
Statins and, 495
Ultrasound preventive effects after spinal cord injury, 431
Osteoprogenitor cells
Growth and differentiation on biodegradable structures after surface modification, 523
In skeletal muscle, 317
Ovariectomy
Levormeloxifene effects on bone loss after, monkeys, 7

Paget's disease
Bone turnover as measure of treatment response in, 447
Parathyroid hormone
Anabolic effect of, calcium and phosphorus influence on, 344
Bone mineral density and, ovariectomized rats, 352
Calvaria, 1,25-dihydroxyvitamin D_3 and, 231
Peripheral bone and axis skeleton in renal failure and, 258
Protein kinase C isozymes in osteoblasts, 223
Pathogenesis
Genetic causes of osteoporosis, Perspective, 407
Pericyte
Osteoprogenitor cells in skeletal muscle and, 317
Peripheral blood
17β-estradiol effects on cytokine production in, 30
Phosphorus
Anabolic effects of parathyroid hormone and, 344
Physical activity
Leisure-time, bone loss and, peri- and postmenopausal women, 442
Prepuberty
Bone mineral density at, former preterm girls, 424
Primate models
Skeletal research and, 1
Prosimii
Skeletal research and, 1
Prostaglandin E2
Bone biomechanics and, 121
Prostaglandins
Bone resorption in men and, 437
Protein kinase C isozymes
In osteoblasts, parathyroid hormone effects, 223

Renal failure
Peripheral bone and axis skeleton in, 258
Research
Skeletal, nohuman primate models in, 1
Risedronate
Bone mineral density and, ovariectomized rats, 352
Bone resorption inhibition and, osteoclast apoptosis and, 553
RNAse protection assay
Fibroblast growth factor effects on fracture healing and, 458

Salmon calcitonin
Bioassay and liquid chromatography calibration of, 84
Schwannoma
Sinusoidal malignant, neuroendocrine oncogenic osteomalacia and PHEX and, 393
Serotonin receptor activation
In osteoblasts, 477
Sex hormone-binding globulin
Bone turnover and, osteoporotic fractures, 381
Sex steroid
Bone turnover rate and bone mineral density in elderly males and, 286
Sex-hormone binding globulin
Osteoporosis in men and, 90
Skeletal maturation
Calcium metabolism and bone mass during, calcium intake effects, rabbits, 62
Skeletal muscle
Osteoprogenitor cells in, 317
Skeletal research
Nonhuman primate models in, 1
Skeletal unloading
Fractal dimension analysis of weight-bearing bones during, rats, 180
Skeleton, axis
Peripheral bone and, in renal failure, 258
Spinal cord injury
Ultrasound efficacy in prevention of osteoporosis after, 431
Static loading
Appositional and longitudinal bone growth and, 105
Statins
Osteoporosis and, 495
Steroids
Inhaled, alendronate effects on bone loss in, 506
Osteoporosis induced by, molecular mechanisms of, 498
Strength, compressive
Bone volume fraction and ash fraction influence on, 74
Stromal cells
Osteoclast differentiation and, 236
Transduction efficiency, vesicular stomatitis virus-pseudotyped retrovectors and, 323
Strontium ranelate
Bone resorption inhibition and, 176

Thyroid hormone
Triiodothyronine effects on insulin-like growth factor in osteoblastic cells, 5404
TNP-470
Angiogenesis inhibition effects on fracture healing and, rats, 560
Torsional testing
Computed tomography and, rat humerus, 265
Trabecular bone
Fractal analysis during skeletal unloading, rats, 180
Transforming growth factor-β
Estrogen skeletal effects in postmenopausal women and, 216
Transforming growth factor-β1
Bone morphogenetic protein-2 and, osteoblast differentiation effects, 323
Triiodothyronine
Insulin-like growth factor system in osteoblastic cells and, 540
Tumor progression
Macrophage metalloelastase expression in chondrocytes during, 487

Ulna
Appositional and longitudinal bone growth, static/dynamic forces effects on, rats, 105
Ultrasound
Calcaneus, postmenopausal *vs.* premenopausal women, 79
Prevention of osteoporosis after spinal cord injury and, 431
Uremia
Peripheral bone and axis skeleton in renal failure and, 258

Vitamin D receptors
Age-related osteopenia and, 35

Women, postmenopausal
Alendronate effects on bone porosity in osteoporosis and, 185
Calcaneus ultrasound, comparison with premenopausal women, 79
Estrogen receptor gene polymorphism and bone mineral density in, 96
Estrogen skeletal effect mechanisms, in postmenopausal women, 216
25-Hydroxyvitamin D_3 levels in, bone mineral density and, 428

Bone Vol. 29, No. 6
December 2001:576–580

Leisure-time physical activity and bone loss in, comparison with perimenopausal women, 442

Wound healing
Genetic variations in bone regeneration and, 134

Zinc
Bone strength and mass effects, rats, 565
